

## GRAPHIC RED & BLUE

This graphic follows the model created by Wegelin & Co (Sole24Ore - 2002) that represents the Stock Market's trend during the long term 1925-2002. The graphic is updated at the end of every month and differentiates periods of falling (blue) and of rising (red) with the relative percentages.

### Index MSCI World Total Return USD

Values at the end of month from 31.12.1925 to 28.02.2011
